## **DETAILED ACTION**

### ***REASONS FOR ALLOWANCE***

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or reasonably suggest, either singularly or in combination, at least first and second heat sinks being either in thermally joining direct contact or in thermally joining contact with interposition of an adhesive in a junction overlooking one of the two side planes which do not compose facets of a cavity in a semiconductor light emitting element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
